

A.A.U CHAMO INTERNATIONAL BUSINESS AGENCY SERVICES LIMITED

Enterprise ERP & Operations Suite — Master User Manual

Version 1.0 (2026 Production Edition)

[!IMPORTANT] **CONFIDENTIALITY & OFFICIAL OPERATIONAL GUIDE** This Master User Manual is the comprehensive operational guide for A.A.U Chamo International Business Agency Services Limited. It covers all 14 enterprise modules, role-based authorization matrices, step-by-step operating instructions, mobile PWA punch clock guides, and audit procedures.

Table of Contents

- 1. [Volume 1: Super Admin & System Administrator Manual](#)
- 2. [Volume 2: Sales Officer & Point of Sale \(POS\) Counter Manual](#)
- 3. [Volume 3: HR Officer & Mobile Attendance Punch Clock Manual](#)
- 4. [Volume 4: Operations Manager & Station Inventory Manual](#)
- 5. [Volume 5: Cargo Officer & Freight Logistics Manual](#)
- 6. [Volume 6: Finance Officer & Accounting Manual](#)
- 7. [Volume 7: Auditor & Compliance Inspection Manual](#)

Volume 1: Super Admin & System Administrator Manual

Module 01 Focus: System Governance, Security, Access Control & Executive Dashboard

1. Executive Summary & Role Definition

As a **Super Administrator** or **System Administrator** at AAU Chamo, you hold full, company-wide operational authority over the platform.

Core Responsibilities

- 1. **System Governance:** Onboarding users, configuring organizational structures (Business Units and Stations), and assigning role-based permissions.
- 2. **Security & Compliance:** Overseeing user access, enforcing password policies, managing AES-256 data encryption keys, and revoking suspicious active sessions.
- 3. **Audit Chain Integrity:** Verifying the cryptographic integrity of the system's tamper-proof audit trail.
- 4. **Operational Oversight:** Monitoring real-time company KPIs, multi-station revenue trends, and approving high-value operational requests.

2. Onboarding Users & Station Scope Scoping

1. Navigate to **System Settings** → **User Management** → **Add New User**.
2. Enter Username, Email, Full Name, and Initial Password.
3. Assign Primary Role (*Super Admin, Admin, Finance, HR, Operations, Sales, Auditor*).
4. Set Station Scope (*Assigned Station vs Company-Wide Access*).
5. Link user login to employee profile in **HR** → **Staff Catalogue** to enable mobile punch clocking.

3. Executive Dashboard & Cryptographic Audit Verification

1. Review real-time company revenue, active sales, cargo freight, and attention queues on [/](#).
2. Navigate to **Compliance** → **Audit Verification**.
3. Click **Execute Hash Chain Integrity Check** (</api/audit/verify>) to verify SHA-256 hash digests and confirm 0 database tampering.

Volume 2: Sales Officer & Point of Sale (POS) Counter Manual

Module 02 Focus: Retail Checkout, Barcode Scanning, Split Payments & Cash Reconciliation

1. Executive Summary & Role Definition

As a **Sales Officer** or **Cashier**, your primary responsibility is to deliver fast, accurate, and secure customer transactions at the retail checkout counter.

2. Step-by-Step Operating Instructions

Opening POS Drawer Session

1. Navigate to **Point of Sale (POS)**.
2. Enter **Opening Cash Float** (e.g., ₱ 10,000.00).
3. Click **Start Session**. Status becomes **Drawer Status: OPEN** .

Processing Checkout & Split Payments

1. Scan product barcodes or search items by name.
2. Attach or create customer profile (+ **Quick Add Customer**).
3. Select Payment Method:
 - **Cash**: Enter Cash Received; system calculates exact change.
 - **Transfer / POS Card**: Enter transaction reference code.
 - **Split Payment**: Enter Cash amount + Transfer amount to equal Total Due.
4. Click **Complete Sale** to auto-deduct stock, record ledger entries, and print thermal receipt.

Closing POS Drawer & Cash Reconciliation

1. Click **Close Drawer Session**.
2. Count physical drawer cash and enter **Counted Cash**.

3. System calculates **Variance** (*Balanced, Shortage, or Surplus*).
4. Click **Finalize & Close Session** and submit cash bag to Finance Officer.

Volume 3: HR Officer & Mobile Attendance Punch Clock Manual

Module 03 & 05 Focus: Staff Administration, ID Cards & PWA Attendance Punch Clock

1. Executive Summary & Role Definition

As an **HR Officer**, you manage employee onboarding, department structures, staff appointment letters, official ID cards, and mobile attendance tracking.

2. Onboarding & ID Card Printing

1. Register staff details in **HR Management** → **Staff Catalogue**.
2. Select Home Station, Department, Position, Salary, and Employment Type.
3. Link system login user to enable mobile punch clocking.
4. Click **Print Documents** → **Appointment Letter** or **Employee ID Card** (with scannable barcode).

3. Mobile PWA Attendance App (/attendance)

1. Staff open <https://<domain>/attendance> on iOS Safari or Android Chrome.
2. Tap **Add to Home Screen** to install the **AAU Clock** app icon.
3. App acquires high-accuracy GPS lock (**GPS Lock Connected**).
4. Tap **CLOCK IN NOW** at start of shift and **CLOCK OUT NOW** at end of shift.
5. HR monitors daily logs, shift durations, IP addresses, and GPS map pin links in **HR** → **Attendance Logs**.

Volume 4: Operations Manager & Station Inventory Manual

Module 04 & 07 Focus: Station Governance, Stock Balances, Transfers & Maker-Checker Adjustments

1. Executive Summary & Role Definition

As an **Operations Manager**, you oversee physical station throughput, live inventory balances, inter-station stock transfers, and stock adjustment approvals.

2. Inter-Station Stock Transfers (2-Step Workflow)

1. **Request:** Click **New Transfer Request** → Select Source Station, Destination Station, and quantities. Status = **PENDING DISPATCH**.
2. **Dispatch (Source Manager):** Inspect loaded items → Click **Dispatch Lines**. Stock is deducted from Source Station and marked in-transit.

3. **Receive (Destination Manager):** Inspect physical arrival → Click **Receive Lines**. Stock is added to Destination Station balance.

3. Maker-Checker Stock Adjustments

1. **Maker (Requester):** Submits physical count delta with reason (e.g. *cycle count delta*). Status = **PENDING_APPROVAL**.
2. **Checker (Approver):** A second manager/admin reviews and clicks **Approve Adjustment**. Status = **POSTED**. Ledger updates safely.

Volume 5: Cargo Officer & Freight Logistics Manual

Module 08 Focus: Air Waybills (AWB), Package Labeling, Dispatch Tracking & Corrections

1. Executive Summary & Role Definition

As a **Cargo Officer**, you register cargo freight, issue Air Waybills (AWBs), print thermal package labels, manage flight/vehicle dispatch manifests, and support customer tracking.

2. Step-by-Step Freight Operations

1. **Book AWB:** Capture Sender, Receiver, Cargo Category, Pieces, Weight (kg), and Declared Value.
2. **Thermal Label Tagging:** Print 80mm sticky shipping tags (**AWB-902841 [Piece 1 of 3]**) and attach to packages. Scan tag barcodes to verify pieces.
3. **Dispatch Manifest:** Assign shipments to outbound flight/vehicle number and click **Confirm Dispatch**.
4. **Correction Requests:** If AWB details need post-booking edits, submit a **Cargo Correction Request** for supervisor approval.
5. **Public Live Tracking:** Senders/receivers track real-time status at [https://<domain>/track/\[AWB_NUMBER\]](https://<domain>/track/[AWB_NUMBER]).

Volume 6: Finance Officer & Accounting Manual

Module 10 & 11 Focus: Double-Entry Vouchers, Agent Wallets, Period Closing & P&L Analysis

1. Executive Summary & Role Definition

As a **Finance Officer**, you maintain double-entry financial ledgers, audit cash drawer session reports, manage agent digital wallets, lock financial periods, and generate Profit & Loss (P&L) statements.

2. Double-Entry Vouchers & Agent Wallets

1. **Post Vouchers:** Record Income and Expense vouchers against standardized account codes with receipt attachments.
2. **Agent Wallets:** Process agent wallet deposits, set credit limits, issue reversals, and export monthly **Statement of Account** continuity reports.

3. **POS Cash Audit:** Audit cashier closing reports and post **Bank Deposit Reconciliations**.

3. Financial Period Closing & P&L Analysis

1. Select completed financial month in **Finance** → **Financial Periods** and click **Lock Period**. Prevents unauthorized backdated postings.
2. Generate **Profit & Loss Statement**: Calculates Gross Revenue - COGS - OPEX = Net Operating Profit. Export to CSV.

Volume 7: Auditor & Compliance Inspection Manual

Module 12 & 13 Focus: Automated Reports, Document Lineage & Cryptographic Audit Verification

1. Executive Summary & Role Definition

As an **Auditor**, you possess company-wide read-only access to independently verify financial accuracy, inspect document lineages, and audit system integrity.

2. Compliance Audit Workflows

1. **17 Standardized Reports:** Run and export Sales, Inventory Valuation, AWB Freight, Attendance, and P&L reports to CSV format.
2. **Cryptographic Chain Verification:** Execute `/api/audit/verify` to recalculate SHA-256 hash digests and confirm 0 database tampering.
3. **Document Lineage & Reprint Audits:** Inspect `PrintEvent` logs and watermark duplicate stamps to prevent invoice/receipt fraud.
