Enterprise ERP Dedicated Manual Series

Volume 5: Cargo Officer & Freight Logistics Manual

Module 08 Focus: Air Waybills (AWB), Package Labeling, Dispatch Tracking & Corrections

[!NOTE] **WELCOME CARGO OFFICERS & LOGISTICS CLERKS** This manual provides step-by-step instructions for registering cargo shipments, issuing Air Waybills (AWBs), printing thermal shipping tags, managing dispatch manifests, and tracking freight.

1. Executive Summary & Role Definition

As a **Cargo Officer** or **Freight Logistics Clerk** at AAU Chamo, your primary responsibility is to accept, verify, tag, and dispatch customer freight shipments accurately and securely.

Primary Duties

- AWB Registration:** Capture sender details, receiver details, weight, piece count, and declared cargo value.
- Thermal Label Printing:** Print scannable barcode shipping tags and attach them to physical cargo boxes.
- Dispatch Manifesting:** Assign shipments to departure flights/vehicles and update dispatch statuses.
- Correction Requests:** Submit supervisor approval requests if shipment details need adjustment after booking.
- Customer Tracking Support:** Assist customers in tracking their shipments using AWB tracking numbers.

2. Section 1: Registering & Issuing Air Waybills (AWBs)

```

Step-by-Step AWB Booking Instructions

1. Log in to the ERP using your **Cargo Officer** credentials.
2. Navigate to **Cargo & Freight** → **Book Shipment**.
3. Fill in the Booking Form:
 - **Sender Details:** Full Name, Phone Number, Origin Station.
 - **Receiver Details:** Full Name, Phone Number, Destination Freight Hub.
 - **Cargo Category:** Select *General Goods*, *Perishable Goods*, *Fragile*, or *High-Value Documents*.
 - **Package Weight & Pieces:** Enter Total Weight (kg) and Number of Pieces.
 - **Declared Value:** Enter customer's declared value for insurance compliance.
4. The ERP automatically calculates the **Freight Fee** based on station rate cards and weight multipliers.
5. Select Payment Method (*Cash*, *POS Transfer*, or *Prepaid Account*) and click **Book AWB & Generate Labels**.
6. The ERP assigns a unique tracking number (e.g., **AWB-902841**).

3. Section 2: Package Labeling & Thermal Tag Printing

Every physical piece in a cargo shipment must carry a scannable **Thermal Shipping Tag**:

Step-by-Step Tagging Instructions

1. Upon booking completion, the thermal tag print dialog will open automatically.
2. Click **Print Shipping Tags**.
3. The thermal printer prints 1 sticky label per piece (e.g., **AWB-902841 [Piece 1 of 3]**, **AWB-902841 [Piece 2 of 3]**).
4. Peel and firmly attach each thermal label to the corresponding cargo box or sack.
5. Scan each tag with your handheld barcode scanner to confirm physical piece verification.

4. Section 3: Cargo Dispatch Lifecycle & Status Updates

Cargo shipments progress through a secure status lifecycle:

```
[ DRAFT ] ---> [ BOOKED ] ---> [ DISPATCHED ] ---> [ IN TRANSIT ] ---> [ ARRIVED ]  
---> [ DELIVERED ]
```

Updating Dispatch Statuses

1. Navigate to **Cargo Management → Active Shipments**.
2. Select shipments assigned to an outbound flight or delivery vehicle.
3. Click **Create Dispatch Manifest**.
4. Enter Flight / Vehicle Number (e.g., **Flight NC-402**) and Departure Time.
5. Click **Confirm Dispatch**.
6. The status automatically updates to **DISPATCHED** and sends an automated SMS/notification to the receiver.

5. Section 4: Supervisor Correction Requests

If a mistake is discovered after an AWB is booked (e.g., wrong receiver phone number or incorrect destination station), the ERP enforces a **Supervisor Correction Approval Workflow**:

Step-by-Step Correction Instructions

1. Open the shipment details in **Cargo Management**.
2. Click **Request Correction**.
3. Specify the proposed edits (e.g., Change Destination Station from *Abuja* to *Kaduna*).
4. Enter a detailed **Reason for Correction**.
5. Click **Submit Correction Request**.
6. The request status becomes **PENDING SUPERVISOR APPROVAL**.
7. Once your Cargo Supervisor or Admin approves the request, the AWB details are updated and audited.

6. Section 5: Public Live Shipment Tracking

Customers and staff can track shipments in real-time without logging into the ERP:

Public Tracking Instructions

1. Navigate to the public tracking page at [https://auchamo.vercel.app/track/\[AWB_NUMBER\]](https://auchamo.vercel.app/track/[AWB_NUMBER]) (e.g., [/track/AWB-902841](https://auchamo.vercel.app/track/AWB-902841)).
2. The portal displays:
 - **Current Status Badge** (e.g., **IN TRANSIT** 🚚)
 - **Origin & Destination Hubs**
 - **Estimated Delivery Time**
 - **Complete Timeline Audit Log** showing timestamps for booking, dispatch, transit, and arrival.

7. Section 6: Cargo Troubleshooting Guide

Problem	Cause	Solution
Barcode tag will not scan	Thermal print head dirty or paper misaligned	Clean printer head with alcohol swab. Click Reprint Tag from shipment detail page.
Cannot edit AWB details after booking	Shipment locked after booking confirmation	Use Request Correction button to submit edits for supervisor approval.
Receiver lost pickup reference SMS	Phone number typo or SMS provider delay	Lookup AWB in Cargo Search by sender/receiver phone number. Click Resend Notification .
